*Interactive Mathematics* is an innovative new learning system that covers the full series of developmental mathematics in an interactive, multimedia environment. *Interactive Math* uses animation, video, audio, graphics, and math tools to support multiple learning styles. It is a program complete with instruction, practice, applications, and assessment. **Introduction** — A brief teaching statement directs the reader's attention toward mastering a particular skill. A visual representation of the skill is also presented. **Read** — Book with accompanying audio (which may be disabled) addresses the needs of those who feel more comfortable reading about the concepts and skills before exploring or working problems. **Watch** — Visual learners can watch and listen as example problems are worked out clearly and completely by the author in a brief on-screen video. **Explore** — This feature offers the most interactive learning experience because one can master the skills and learn the concept through discovery.
