This volume reviews many of the material errors made in Jimmy Carter's book and often repeated in interviews. It includes articles by a number of analysts with expertise in commenting on Carter's policies, statements and perspectives. Kenneth Stein, Dennis Ross, Michael Oren, Alan Dershowitz, Melvin Konner and Rachel Ehrenfeld each offer important insight about the former president's lamentable distortions. The book is an opportunity to restate essential facts and to underscore the need for reform of publishing houses, such as Simon and Schuster, that violate basic standards of accuracy, while promoting and profiting from such non-fiction books.
