Societies of Fear: The Legacy of Civil War, Violence and Terror in Latin America Kees Koonings, Dirk Kruijt

Latin America is in the grip of a double challenge--coping with what may be the worst economic crisis since the 1930s and the huge problems of poverty and inequality this has produced, while simultaneously consolidating its democratic transition, trying to recover from the traumas of many years of authoritarian rule and state terror. This superb collection of original scholarship and historical and analytical overviews examines a subject that has received too little attention--the legacy of past conflict, violence and terror in all the most important countries of South and Central America. This volume is ideal for scholars concerned with Latin American society and politics generally, and civil-military relations, peace-building and good governance in particular.
