In the Midst of Darkness takes the reader from the study that is underway in medical science that is exploring the boundaries of our human consciousness. To what is explainable in the paranormal field from sleep paralysis, camera anomalies, and the faking of ghosts. Why everything the paranormal field is using for equipment does nothing at all. Learn the difference between human speech and anomalous voices called Electronic Voice Phenomena EVP with the use of Spectrum Analysis and Articulatory Phonetics. Evidence of human cognition from a once living human being that has shown precognition, sight, emotion, and speech without breath. Results from experiments in cognition how much of our consciousness can be kept from the grave? What happens when we die, as we get older that question takes on new meaning. Throughout recorded history, there has always been the presence of ghosts. I started doing my own research in 2006 being critical about the evidence, and what we have learned after seven years of research is that some small part of our conscious self can survive death.
