Plague and the End of Antiquity: The Pandemic of 541-750

Plague and the End of Antiquity: The Pandemic of 541-750

Plague was a key factor in the waning of Antiquity and the beginning of the Middle Ages. Eight centuries before the Black Death, a pandemic of plague engulfed the lands surrounding the Mediterranean Sea and eventually extended as far east as Persia and as far north as the British Isles. It persisted sporadically from 541 to 750, the same period that witnessed the distinctive shaping of the Byzantine Empire, a new prominence of the Roman papacy and of monasticism, the beginnings of Islam and the meteoric expansion of the Arabic Empire, the ascent of the Carolingian dynasty in Frankish Gaul and, not coincidentally, the beginnings of a positive work ethic in the Latin West. In this volume, the first on the subject, twelve scholars from a variety of disciplines—history, archaeology, epidemiology, and molecular biology—have produced a comprehensive account of the pandemic's origins, spread, and mortality, as well as its economic, social, political, and religious effects. The historians examine written sources in a range of languages, including Arabic, Syriac, Greek, Latin, and Old Irish. Archaeologists analyze burial pits, abandoned villages, and aborted building projects. The epidemiologists use the written sources to track the disease's means and speed of transmission, the mix of vulnerability and resistance it encountered, and the patterns of reappearance over time. Finally, molecular biologists, newcomers to this kind of investigation, have become pioneers of paleopathology, seeking ways to identify pathogens in human remains from the remote past.

Jeremy Windham:

Is it an individual who having spare time and then spend it whole day by watching television programs or just telling lies on the bed? Do you need something totally new? This Plague and the End of Antiquity: The Pandemic of 541-750 can be the response, oh how comes? It's a book you know. You are and so out of date, spending your spare time by reading in this new era is common not a nerd activity. So what these textbooks have than the others?

Joseph Cole:

As a student exactly feel bored for you to reading. If their teacher asked them to go to the library or even make summary for some publication, they are complained. Just minor students that has reading's heart and soul or real their passion. They just do what the teacher want, like asked to the library. They go to generally there but nothing reading significantly. Any students feel that looking at is not important, boring in addition to can't see colorful images on there. Yeah, it is for being complicated. Book is very important for yourself. As we know that on this age, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. Therefore this Plague and the End of Antiquity: The Pandemic of 541-750 can make you really feel more interested to read.
