Teacher Made Materials That Really Teach! Judy Herr

The author created this unique resource text realizing that students needed one place to record their ideas, thoughts, and best practices from their observation and student teaching experiences. The beginning of the text contains chapters that teach students who and what to observe for each chapter. The next section gives students step-by-step instructions on how to reflect on their recorded observations. The last section is an actual journal that gives students additional space to record their thoughts and ideas. Later, when students have their own classrooms to manage they will be able to refer back to this journal and incorporate their previous experiences into their lesson plans and activities.
