Chemistry Jodi Lamm

You don't want to read this book. I'm warning you. This isn't a heartwarming, boy-meets-girl, high school romance. I wish it were—God, do I ever. No, if you read this, you're going to be angry... with me, mostly. You'll probably yell at me, if you're the type of person who yells at books. You'll tell me not to be so stupid, but I won't listen. I'll be exactly as stupid as I need to be to destroy everything I love because that's who I am: a walking, talking tragedy. That's who I've always been. But if you're determined to read on despite my warning, I may as well introduce myself. My name is Claude Frolo, I'm nineteen going on ninety, and this is my story. It isn't pretty, but it's honest. And it's the only story I have left to tell.
