## Logos of Phenomenology and Phenomenology of The Logos. Book Two: The Human Condition in-the-Unity-of-Everything-there-is-alive Individuation, Self, ... Necessity (Analecta Husserliana) (Bk. 2)

The human being is today at the center of scientific, social, ethical and philosophical debates.

*The Human Condition-in-the-unity-of-everything-there-is-alive*, under whose aegis the present selection of essays falls, offers the urgently needed new approach to reinvestigating humanness. While recent advances in the neurosciences, genetics and bio-engineering challenge the traditional abstract conception of "human nature", indicating its transformability, thus putting in question the main tenets of traditional philosophical anthropology, in the new perspective of the *Human Creative Condition* the human individual is seen in its emergence and unfolding within the dynamic networks of the *logos of life*, and within the evolution of living types. Just the same, the *creative logos* of the mind lifts the human person into a sphere of freedom. Within the networks of the logos we retrieve the classical principles – human subject, ego, self, body, soul, person – reinterpret them to counter the naturalistic critique (Tymieniecka).

Thus principles of a new philosophical anthropology satisfying the requirements of the present time are laid down.
