C.C. Chang, H. Jerome Keisler, Mathematics

Model Theory: Third Edition (Dover Books on Mathematics) C.C. Chang, H. Jerome Keisler, Mathematics

Model theory deals with a branch of mathematical logic showing connections between a formal language and its interpretations or models. This is the first and most successful textbook in logical model theory.

Extensively updated and corrected in 1990 to accommodate developments in model theoretic methods — including classification theory and nonstandard analysis — the third edition added entirely new sections, exercises, and references.

Each chapter introduces an individual method and discusses specific applications. Basic methods of constructing models include constants, elementary chains, Skolem functions, indiscernibles, ultraproducts, and special models. The final chapters present more advanced topics that feature a combination of several methods. This classic treatment covers most aspects of first-order model theory and many of its applications to algebra and set theory.

From reader reviews:

Chris Boos:

What do you about book? It is not important along with you? Or just adding material when you need something to explain what you problem? How about your time? Or are you busy person? If you don't have spare time to try and do others business, it is give you a sense of feeling bored faster. And you have spare time? What did you do? Everybody has many questions above. They have to answer that question simply because just their can do this. It said that about guide. Book is familiar on every person. Yes, it is correct. Because start from on pre-school until university need this Model Theory: Third Edition (Dover Books on Mathematics) to read.

Many Shirley:

Do you really one of the book lovers? If so, do you ever feeling doubt when you find yourself in the book store? Attempt to pick one book that you never know the inside because don't assess book by its handle may doesn't work the following is difficult job because you are frightened that the inside maybe not since fantastic as in the outside appearance likes. Maybe you answer is usually Model Theory: Third Edition (Dover Books on Mathematics) why because the excellent cover that make you consider about the content will not disappoint a person. The inside or content will be fantastic as the outside as well as cover. Your reading 6th sense will directly make suggestions to pick up this book.

Michael Kautz:

Beside this specific Model Theory: Third Edition (Dover Books on Mathematics) in your phone, it could possibly give you a way to get more close to the new knowledge or data. The information and the knowledge you can got here is fresh from oven so don't possibly be worry if you feel like an previous people live in narrow commune. It is good thing to have Model Theory: Third Edition (Dover Books on Mathematics) because this book offers to your account readable information. Do you at times have book but you rarely get what it's facts concerning. Oh come on, that wil happen if you have this with your hand. The Enjoyable set up here cannot be questionable, similar to treasuring beautiful island. Techniques you still want to miss it? Find this book and also read it from currently!

Sandra Bland:

In this era which is the greater person or who has ability in doing something more are more valuable than other. Do you want to become one among it? It is just simple strategy to have that. What you are related is just spending your time almost no but quite enough to have a look at some books. On the list of books in the top record in your reading list is actually Model Theory: Third Edition (Dover Books on Mathematics). This book and that is qualified as The Hungry Inclines can get you closer in getting precious person. By looking upward and review this e-book you can get many advantages.
