Laminated Color Periodic Table and Formula Sheet for Chemistry, Biochemistry, and Physics

Laurence Lavelle

Excellent presentation of the Periodic Table. Visually appealing layout of Symbol, Name, Atomic Number, Atomic Weight, and Electron Configuration for each element. Color coded for easy classification of solids, liquids, and gases at room temperature. All Groups and Periods are shown using both IUPAC and CAS notation, along with highlighting of radioactive elements makes it highly informative. The s-block, p-block, d-block, and f-block elements are easy to locate. Both students and professionals will find identification of the Alkali Metals, Alkaline Earth Metals, Coinage Metals, Chalcogens, Halogens, Noble Gases, Rare Earth Metals, Lanthanides, Actinides, and Metalloids highly useful. On the reverse page reference to constants in different units, conversions, and useful equations in Chemistry, Biochemistry, and Physics makes it an all-in-one resource.

Terrific easy to use information-rich resource for quick reference to the chemical elements, with well-known constants and formulas used in Chemistry, Biochemistry, and Physics on the reverse side.

Fits into textbook or notebook as a useful bookmark.

Great for high-school, college, and university students.

9" x 11" and 0.6oz (22 x 29cm and 17g).

Available August 2012

Designed by highly regarded educator Dr. Laurence Lavelle. The same periodic table in large format covers the walls in the UCLA Court of Sciences lecture halls. Dr. Laurence Lavelle attended Princeton University (Ph.D. Molecular Biophysics; M.A. Molecular Biophysics) and the University of Cape Town (M.Sc. Physical Chemistry (Distinction); B.Sc. Chemistry (Honors); B.Sc. Chemistry). He has published widely, coauthored many educational books and materials, and received several research and teaching awards including UCLA's highest teaching award - The University Distinguished Teaching Award.

From reader reviews:

Yvonne Casey:

This Laminated Color Periodic Table and Formula Sheet for Chemistry, Biochemistry, and Physics are reliable for you who want to be described as a successful person, why. The reason of this Laminated Color Periodic Table and Formula Sheet for Chemistry, Biochemistry, and Physics can be one of many great books you must have is usually giving you more than just simple reading through food but feed anyone with information that probably will shock your previous knowledge. This book is definitely handy, you can bring it everywhere and whenever your conditions at e-book and printed kinds. Beside that this Laminated Color Periodic Table and Formula Sheet for Chemistry, Biochemistry, and Physics forcing you to have an enormous of experience such as rich vocabulary, giving you test of critical thinking that we all know it useful in your day pastime. So , let's have it appreciate reading.

Daniel Engle:

The reserve untitled Laminated Color Periodic Table and Formula Sheet for Chemistry, Biochemistry, and Physics is the e-book that recommended to you to learn. You can see the quality of the e-book content that will be shown to you actually. The language that creator use to explained their ideas are easily to understand. The article writer was did a lot of analysis when write the book, hence the information that they share for you is absolutely accurate. You also will get the e-book of Laminated Color Periodic Table and Formula Sheet for Chemistry, Biochemistry, and Physics from the publisher to make you more enjoy free time.

Eun Christensen:

You may spend your free time you just read this book this reserve. This Laminated Color Periodic Table and Formula Sheet for Chemistry, Biochemistry, and Physics is simple to bring you can read it in the park your car, in the beach, train and also soon. If you did not have got much space to bring the actual printed book, you can buy the actual e-book. It is make you easier to read it. You can save often the book in your smart phone. So there are a lot of benefits that you will get when one buys this book.

William Pettigrew:

On this era which is the greater particular person or who has ability to do something more are more important than other. Do you want to become considered one of it? It is just simple method to have that. What you must do is just spending your time little but quite enough to have a look at some books. One of several books in the top list in your reading list is Laminated Color Periodic Table and Formula Sheet for Chemistry, Biochemistry, and Physics. This book which is qualified as The Hungry Slopes can get you closer in growing to be precious person. By looking way up and review this publication you can get many advantages.
