Designated a Doody's Core Title!
Winner of an AJN Book of the Year Award!

A comprehensive and thoughtful examination of the ethical issues that arise in long-term care. The first two chapters set the stage by exploring the pre-nursing home experiences of families living with dementia and, in contrast, how residents and family members experience life in the nursing home. The following chapters contain detailed hypothetical cases that include questions, possible actions, and insightful commentary to illustrate practical approaches to understanding ethical everyday issues affecting nursing home residents. The book also contains a useful Appendix focusing on creating a Nursing Home Ethics Committee.
