## **Hyperion Omnibus (Hyperion and The Fall of Hyperion)** Dan Simmons

The Hyperion books are credited with single-handedly reinventing and reinvigorating SF in the 1990s. A broad canvased, hugely imaginative and exciting SF epic, the books draw on the works of Keats and provide a uniquely intelligent and literary approach with cutting edge science, compelling characterisation and edge-of-your-seat excitement. The story is continued in ENDYMION and THE RISE OF ENDYMION, which Gollancz will also be publishing in an omnibus volume.
