A First Course in Calculus (Undergraduate Texts in Mathematics)

Serge Lang

A First Course in Calculus (Undergraduate Texts in Mathematics) Serge Lang

This fifth edition of Lang's book covers all the topics traditionally taught in the first-year calculus sequence. Divided into five parts, each section of A FIRST COURSE IN CALCULUS contains examples and applications relating to the topic covered. In addition, the rear of the book contains detailed solutions to a large number of the exercises, allowing them to be used as worked-out examples -- one of the main improvements over previous editions.
