In 1634 a remote village decides to stand and fight against their vampire oppressors who have been slaughtering their people like cattle for decades. With so much pent up rage the villagers intend to wipe out the vampires and destroy their castle finally putting an end to their torment. However before the plan is put into action some hunters can't believe their luck when they spot two vampires resting by a stream. They seize the opportunity to kidnap one of them putting her on trial for crimes against humanity. But this person who has been sentenced to death by excruciating torture is no ordinary vampire, she's a mixed breed dhampir, the most violent of their species. It's no longer a question of will the vampires come to her rescue, but one of will the vampires rescue the villagers. This book was written for horror fans and pulls no punches when describing despicable acts of violence, torture and vampire bites.
