See Me: Story by Nicholas Sparks - A Full Summary!

See Me is new book, written by Nicholas Sparks. This book, as well as his previous work, are distinctive for Sparks' own special formula, where he successfully creates two, seemingly unconnected characters and then brings them together by, what seems to be pure coincidence and those characters then immediately fall in love.

See Me is a book about two main characters- Colin Hancock and Maria Sanchez and their romance that seems to blossom overnight in, what appears to be a typical 'love at first sight' cliché. Even though this may seem too predictable, this is exactly what Sparks' fans love about his books.

New breath into the story plot is an involvement of an unknown stalker. This is also twist in the story, filled with tension and thriller, something that, although unexpected from Sparks, is still welcoming change in storytelling by this author.

Overall, See Me is a novel that most of readers will enjoy reading, because it has likeable and simple characters and sweet, tender love story. But besides sweetness that undoubtedly lies beneath the surface of this book, another great element that makes this book even better and even more enjoyable to read is his new element of thriller and suspense, something readers will most definitely like.
