Build Fundamental geography skills with this introductory workbook, containing lower-level elementary maps, illustrations, and activities.

Understanding Geography is a grade-specific map, graph and geography skills program that helps students learn about and better understand the world they live in. Understanding Geography is designed to be used as a stand-alone curriculum or to support existing social studies curricula.

In Grade Level 4, children review the basic map features as well as understand different types of maps including physical, political, and historical. They also study elevation, weather and climate. Two other books are in the series: Grade Level 3 and 5.
