When you realize the true nature of Islam, you may want to persuade others. Then you discover that they have their minds filled with the "establishment" version of Islam and give you their justifications that support it. This book is written for those who want to be effective in persuading others about the true nature of Islam. You learn the powerful method of fact-based reasoning. Since 9/11 these methods have been used to change the minds of supporters of Islam from all political backgrounds. Anyone, whether they are liberals, progressives, leftists or conservatives, can all be persuaded to see the truth in light of the facts about Islam. Since the methods used in this book are based on the sacred source texts of Islam, those who have read the Trilogy of Koran, Sira and Hadith will obtain the full benefit. Others can learn from the examples, but the more facts you have, the better your results. If you want to understand the Trilogy, go to [www.politicalislam.com](http://www.politicalislam.com) where you can learn about Islam's doctrine with the Foundations of Islam, A Self-Study Course.
