Living in the Environment G. Tyler Miller, Scott Spoolman

""Inspiring people to care about the planet."" In the new edition of LIVING IN THE ENVIRONMENT, authors Tyler Miller and Scott Spoolman have partnered with the National Geographic Society to develop a text designed to equip students with the inspiration and knowledge they need to make a difference solving today's environmental issues. Exclusive content highlights important work of National Geographic Explorers, and features over 200 new photos, maps, and illustrations that bring course concepts to life. Using sustainability as the integrating theme, LIVING IN THE ENVIRONMENT 18e, provides clear introductions to the multiple environmental problems that we face and balanced discussions to evaluate potential solutions. In addition to the integration of new and engaging National Geographic content, every chapter has been thoroughly updated and 18 new Core Case Studies offer current examples of present environmental problems and scenarios for potential solutions. The concept-centered approach used in the text transforms complex environmental topics and issues into key concepts that students will understand and remember. Overall, by framing the concepts with goals for more sustainable lifestyles and human communities, students see how promising the future can be and their important role in shaping it. offers additional exclusive National Geographic content, including high-quality videos on important environmental problems and efforts being made to address them. Team up with Miller/Spoolman's, LIVING IN THE ENVIRONMENT and the National Geographic Society to offer your students the most inspiring introduction to environmental science available!

From reader reviews:

Erma Ward:

As people who live in often the modest era should be change about what going on or info even knowledge to make all of them keep up with the era and that is always change and move ahead. Some of you maybe may update themselves by examining books. It is a good choice in your case but the problems coming to you actually is you don't know what one you should start with. This Living in the Environment is our recommendation so you keep up with the world. Why, because book serves what you want and need in this era.

Edward White:

Are you kind of active person, only have 10 or perhaps 15 minute in your day to upgrading your mind ability or thinking skill possibly analytical thinking? Then you are receiving problem with the book compared to can satisfy your short time to read it because pretty much everything time you only find reserve that need more time to be learn. Living in the Environment can be your answer since it can be read by you actually who have those short extra time problems.

Lois Huseby:

Reading a book to become new life style in this calendar year; every people loves to go through a book. When you study a book you can get a large amount of benefit. When you read textbooks, you can improve your knowledge, mainly because book has a lot of information upon it. The information that you will get depend on what types of book that you have read. If you would like get information about your analysis, you can read education books, but if you act like you want to entertain yourself you are able to a fiction books, these kinds of us novel, comics, in addition to soon. The Living in the Environment will give you a new experience in reading a book.

Martha Fincher:

Beside this particular Living in the Environment in your phone, it could give you a way to get nearer to the new knowledge or information. The information and the knowledge you are going to got here is fresh from the oven so don't always be worry if you feel like an old people live in narrow small town. It is good thing to have Living in the Environment because this book offers for you readable information. Do you often have book but you do not get what it's exactly about. Oh come on, that would not happen if you have this in the hand. The Enjoyable arrangement here cannot be questionable, such as treasuring beautiful island. Techniques you still want to miss that? Find this book in addition to read it from now!
