People and place, sport and identity are at the heart of this book, telling the story of how the GAA has left a unique imprint on every Irish county and Irish community overseas. Organized county by county, the highs and lows of on-field activity are charted and the various forces that have shaped the personality of the GAA across each county - social, economic, geographic, and political - are examined. With a compelling mix of text, images, and first-hand accounts from participants in the GAA Oral History project, this is a seamless blend of the scholarly and the popular, providing fascinating insights into why the GAA has developed as it has in different places.
